

chicago business VOIP

affordable / reliable / effective - Voice Over IP Solutions

“A survey of 500 small business owners conducted by the Yankee Group found that over 70% of small businesses would prefer a hosted solution over a premise based solution.”

Reduce Cost. Increase Sales. Improve Productivity.

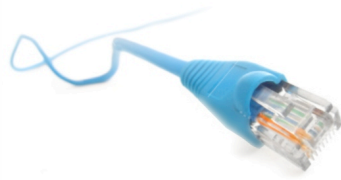

Introducing Hosted Phone Service from Chicago Business VoIP

We help small business owners lower their overall cost for voice communications, increase sales, and improve productivity by providing a hosted phone service for businesses with less than 10 employees, or multisite businesses with less than 10 employees at any given location.

Our Guarantee: We are so confident in our solution that we never require any long term contracts or commitments, and you are free to cancel at anytime.

CBV service runs end to end over a Cisco Powered Network.

- Unlimited calling to the US and Canada
- No expensive hardware to purchase, maintain, or manage
- Advanced features including Toll Free, Auto Attendant, Virtual Fax, and Call Center Package (Call recording, ACD)
- Unified Messaging- voice mail to email, find me follow me
- Keep your existing phone number(s)
- Use with existing high speed internet connection
- Ideal for businesses with 1-9 employees, or multisite businesses with less than 10 employees at each location
- FREE phone system upgrades for life of contract!
- Package includes high speed internet access
